private/business sector

BECOME A SUCCESSFUL PRACTITIONER IN INDIAN  
DATA PROTECTION LAW, SECURITY & MANAGEMENT

A photograph of three young professionals (two women and one man) sitting around a table in a modern office setting. They are smiling and looking at documents and a tablet. The woman on the left has a braid and is wearing a grey sleeveless top. The woman in the middle is wearing a pink patterned shirt. The man on the right is wearing a green button-down shirt over a black t-shirt. There are laptops and papers on the table. A large orange circle is overlaid on the image, containing text.

INDUSTRY**

**> 1.5 MILLION INDIAN DATA PROTECTION EXPERTS NEEDED**

# DEMYSTIFYING THE PRIVACY SPACE

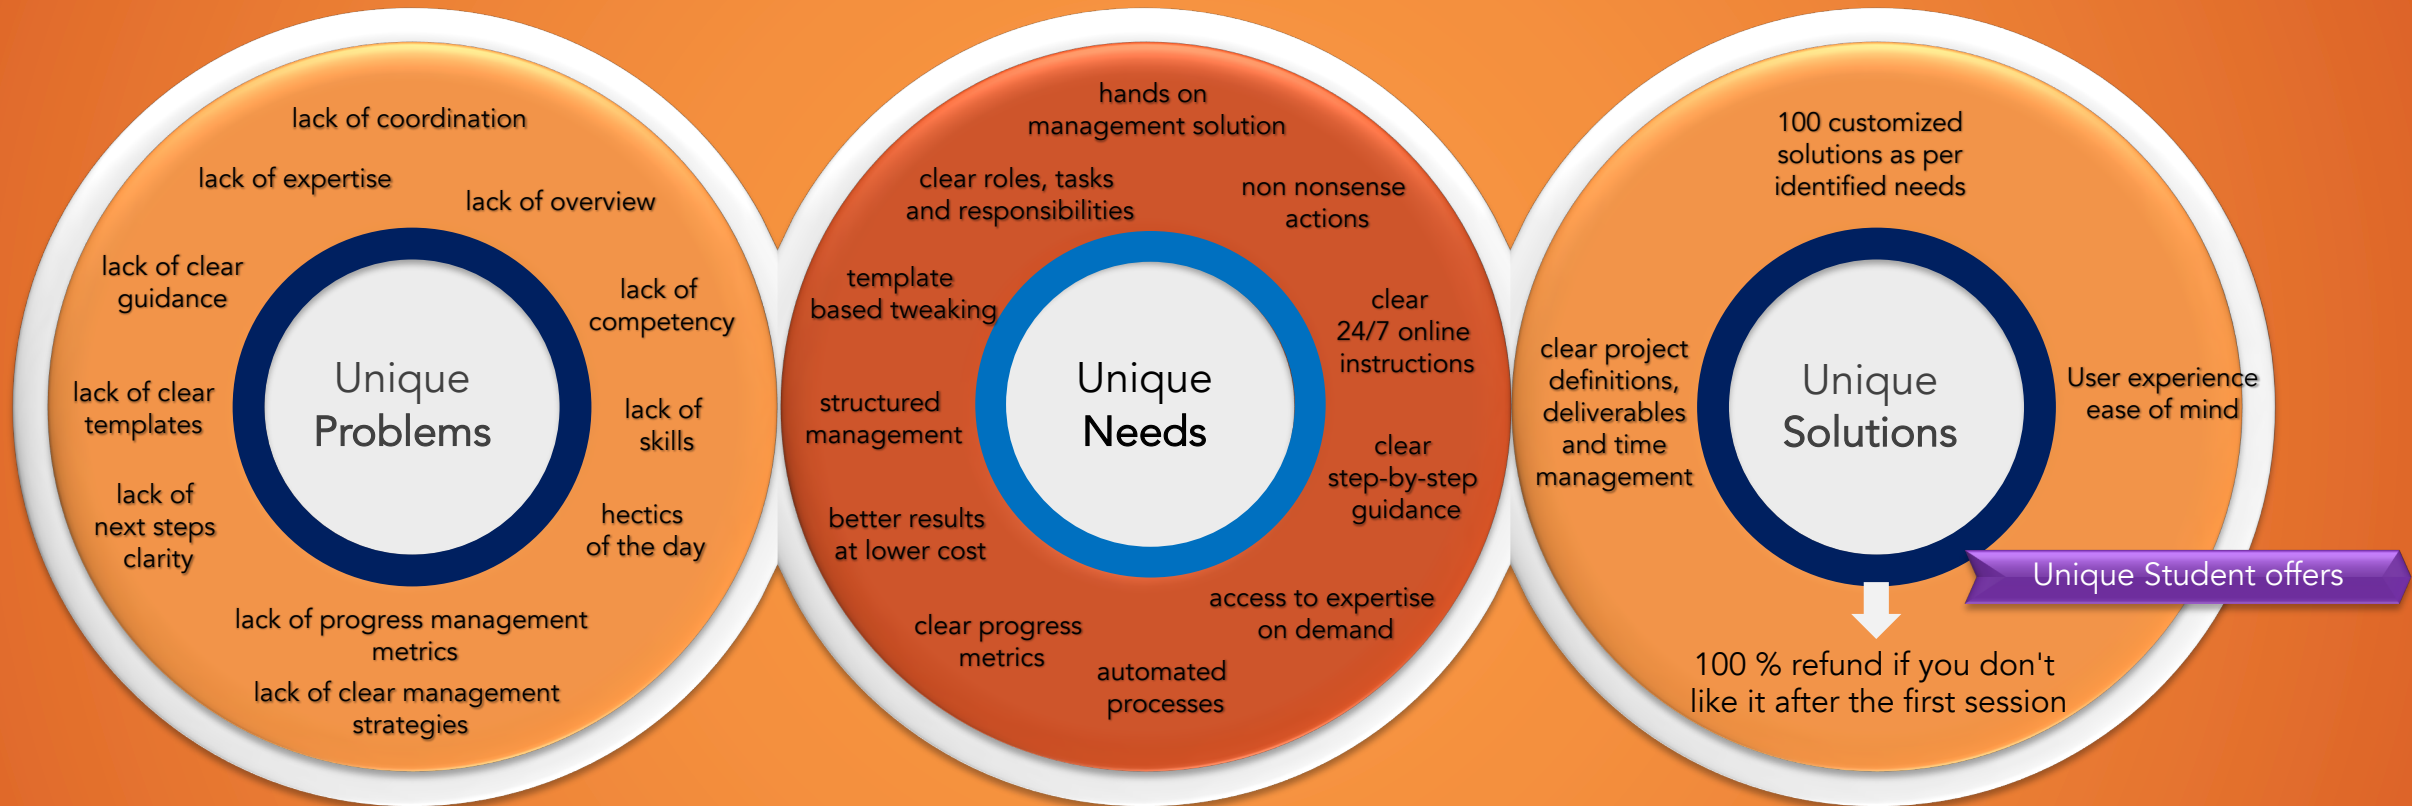

As part of a larger global trend the Republic of India wants data fiduciaries (companies and businesses to take measures to protect and secure the personal data that they collect, and that is leading to an explosion of career opportunities in the data protection and privacy space.

Having trained over 5,000 privacy professionals in different tracks, roles and positions, Privacy Academy (India Branch) has designed an interesting career boosting training program for anyone (without prior knowledge) willing to pursue a professional career in the fields of privacy and data protection. Lawyers (junior, medior, senior) who want to shift from traditional areas of legal practice to privacy and security laws and work with fast-growing startups, law firms or in the privacy teams of companies, In-house counsels who want to assist their organisations in addressing data protection and privacy work at a global level, Chartered Accountants and Company Secretaries who want to provide unique and high-value services to their clients.
